Counting to 100 – Practical Activities

Advice and ideas	Water	Outdoor
Water Provide number tracks that count forwards and backwards within one hundred. Encourage children to recall the sequence aloud, then use a net to catch the number that would come next. **Outdoor** Challenge children to count their steps. How many steps does it take to walk around the edge of the outdoor area? How many lengths can you walk in one hundred steps?		

Counting to 100 – Practical Activities

Advice and ideas	Fine Motor	Construction
Fine Motor Provide dot to dot activities that involve numbers to one hundred. Ask children to complete by counting forwards or backwards. Challenge children to create their own dot to dot picture. **Construction** Provide number tracks that count forwards and backwards within one hundred. Ask children to build towers of tens and ones to represent the next number in the sequence.
