

# Recognising Apostrophes

Savannah has written the text below using apostrophes for possession and apostrophes for contraction. She has written about the things her friends and family like to do.

My best friend Rebecca's favourite toy is her scooter. She couldn't be without it because it's how she travels to school every day. Rebecca's mum bought it for her as a birthday present and can't believe how much she loves it.

My little brother's hobbies include roller skating and rock climbing. He's very adventurous and doesn't like to sit still. Dad is always telling him he needs to rest so that he doesn't get injured.

Create two characters who are Savannah's friends or family and write a short paragraph about each person using apostrophes for possession and contraction.

Savannah's dad is a builder and he's always happy. He doesn't like it when it's raining outside because he gets wet at work. He's very tall which means he can't fit into her playhouse without ducking. He can't wait for the weekend because he gets to take us to see our grandparents who've just moved away. They've just bought a house in the countryside large enough to have the whole family round.

Savannah's cousin, Erica, is like a best friend to her. She's always visiting their house and often has a sleepover. Erica's favourite thing to do at a sleepover is have a midnight feast. She's really good at being prepared and always brings the best snacks ever! They're delicious!
