

## Part-Whole Model – Prior Learning

### Advice and ideas

#### Maths

Provide a variety of items to sort. For example, different coloured pears. Adults to ask children to count the quantities in each set. E.g. '3 pears are green, 2 are yellow. There are 5 altogether'.

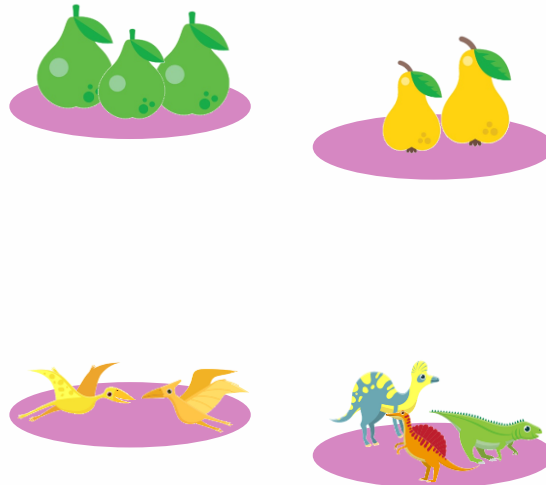

#### Construction

Encourage children to sort the wooden blocks into at least two sets. For example, those with curved edges. Children count the amounts in each group as well as the combined total.
