

Count and Write Numbers to 20 – Practical Activities

Advice and ideas

Maths

Provide the children with a range of objects that they can count. Children make the number and then write it on a sticky note.

Writing

Provide numbers as words and numerals. Ask the children to match the word to the numeral. Challenge them to write a number story using the number words.

Count and Write Numbers to 20 – Practical Activities

Advice and ideas

Creative

Ask children to create a board game in which counters can move along in sequence up to twenty. Provide materials for construction. Does the game count forwards or backwards?

Outdoor

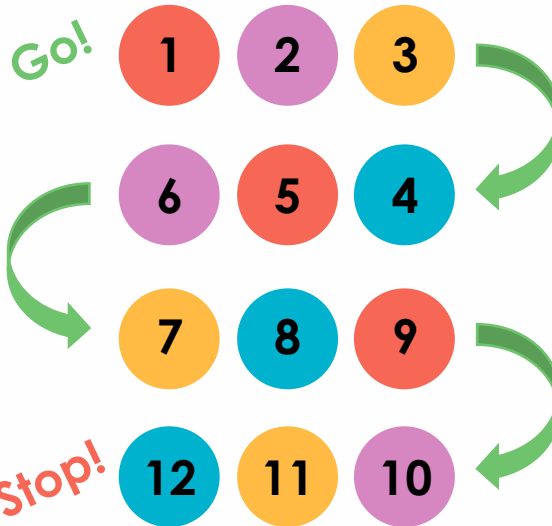

Challenge children to draw a giant number line to twenty in the outdoor area with chalks. Support children with writing teen numbers.

Creative

Create a board game.

Go!

Outdoor

Draw a number line.

Count and Write Numbers to 20 – Practical Activities

Advice and ideas

Tuff Tray

Add lots of countable objects to the tuff tray e.g. pine cones/acorns and ask children to count them. Can children show how many using foam numbers?

Malleable

Provide number cards with a range of numerals and words. Children to choose a card and write the corresponding numeral or word in the shaving foam.

Tuff Tray
