

Months and Years

1. Draw a line to match the clocks to the correct time.

quarter to 3

11 o'clock

quarter past 5

VF

4. Jennifer is trying to tell the time.

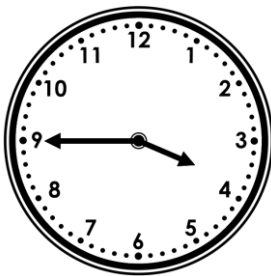

It is quarter past three because the minute hand is pointing to 3.

Is Jennifer correct? Explain your answer.

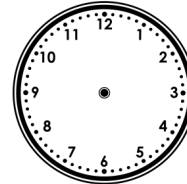

R

2. Write the time shown on this clock.

VF

5. The hands have fallen off this clock. Hamish says:

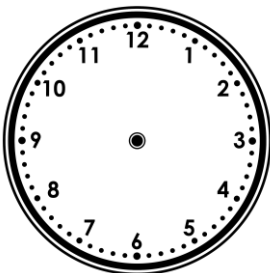

It's half past seven so the hour hand should be pointing to 7.

Is Hamish right? Explain how you know.

R

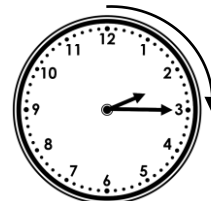

3. Draw the missing hands on the clock so that it shows the time written beneath it.

Half past eight

VF

6. Natalia is learning to use half and quarter turns to tell the time. The clock shows the last turn she practised.

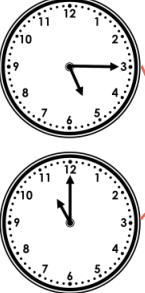

Natalia can make quarter or half turns. She makes two more turns. What could her time be now?

Give two possibilities.

PS

Months and Years

1.

quarter to 3

11 o'clock

quarter past 5

2. quarter to 4

3.

4. Jennifer is incorrect. She has confused the hour hand and the minute hand. The hour hand is at 3 and the minute hand is at 12. It is 3 o'clock.

5. Hamish is incorrect. Because it is half past, the hour hand should be pointing halfway between 7 and 8.

6. Various answers, for example: two quarter turns would give the time quarter to 3; a quarter turn and a half turn would give 3 o'clock; two half turns would give quarter past 3.
