

Homework/Extension

Step 1: Multiply by 10

National Curriculum Objectives:

Mathematics Year 4: (4C6a) [Recall multiplication and division facts for multiplication tables up to \$12 \times 12\$](#)

Mathematics Year 4: (4C6b) [Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers](#)

Differentiation:

Questions 1, 4 and 7 (Varied Fluency)

Developing Complete an inequality statement. Using multiplying up to 3-digit numbers by 10. Using pictorial representations.

Expected Complete an inequality statement. Using multiplying up to 3-digit numbers by 10, including using knowledge of commutative law. Using pictorial representations.

Greater Depth Complete an inequality statement. Using multiplying up to 3-digit numbers by 10 including using knowledge of commutative law. Using pictorial representations and some use of unconventional partitioning.

Questions 2, 5 and 8 (Varied Fluency)

Developing Decide who is correct when multiplying up to 3-digit numbers by 10. Using pictorial representations.

Expected Decide who is correct when multiplying up to 3-digit numbers by 10 including using knowledge of commutative law. Using pictorial representations.

Greater Depth Decide who is correct when multiplying up to 3-digit numbers by 10 including using knowledge of commutative law. Using pictorial representations and some use of unconventional partitioning.

Questions 3, 6 and 9 (Reasoning and Problem Solving)

Developing Explain whether a statement is correct by solving a two-step problem when multiplying up to 3-digit numbers by 10. Using pictorial representations.

Expected Explain whether a statement is correct by solving a two-step problem when multiplying up to 3-digit numbers by 10. Including using knowledge of commutative law. Using pictorial representations.

Greater Depth Explain whether a statement is correct by solving a three-step problem when multiplying up to 3-digit numbers by 10. Including using knowledge of commutative law and unconventional partitioning.

Multiply by 10

1. Complete the inequality statement using the options below.

Tens	Ones
10	10
10	10
10	10
10	10

C. 13 lots of 10

VF
HW/Ext

2. Lily and Bobby are discussing the sticks in the bundles below.

Lily

I think the bundles show 7 lots of 10 sticks.

I think the bundles show 8 lots of 10 sticks.

Bobby

Who is correct?

VF
HW/Ext

3. Miss Wild orders 11 new paint palettes for the school. Each palette needs 10 different colour blocks.

She orders 100 different colour blocks altogether.

Explain Miss Wild's mistake.

RPS
HW/Ext

Multiply by 10

4. Complete the inequality statement using the options below.

H	T	O
100	10 10 10 10 10 10 10 10	

A. 22 lots of 10

VF
HW/Ext

5. Alfie and Katie are discussing the petals on the flowers below.

Alfie

I think the flowers show 10 lots of 24 petals.

I think the flowers show 24 lots of 10 petals.

Katie

Who is correct?

VF
HW/Ext

6. Mr Parker orders 10 boxes of reading records. There are 37 in each box.

The school has 375 children altogether.

Explain Mr Parker's mistake.

RPS
HW/Ext

Multiply by 10

7. Complete the inequality statement using the options below.

10 lots of 10, 3 lots of 10 and 16 lots of 1.

A. 7 lots of 10 and 10 lots of 8

VF
HW/Ext

8. Annie and Ben are discussing the petals in each flower pot below.

Ben

I think the flowers show 19 lots of 10 petals.

I think the flowers show 10 lots of 19 petals.

Annie

Who is correct?

VF
HW/Ext

9. Mr Morgan books 3 coaches for a school trip. Each coach has 45 seats.

He is taking 10 groups of 7 children and 6 groups of 10 children and needs space for 9 adult helpers.

Y4 Trip Helpers	
1.	Mrs Shaw
2.	Miss Jackson
3.	Mr Rhodes
4.	Miss Chambers
5.	Mr Needle
6.	Mrs Cotton
7.	Miss Powell
8.	Mr Wilde
9.	Miss Milne

Explain Mr Morgan’s mistake.

RPS
HW/Ext

Homework/Extension

Multiply by 10

Developing

1. **C**
2. **Bobby**
3. **She is incorrect because she doesn't have enough. She needs 10 more colour blocks.**

Expected

4. **B**
5. **Alfie**
6. **He is incorrect, because ten lots of 37 books would be 370 books, so he would need five more books.**

Greater Depth

7. **B**
8. **Annie**
9. **He is incorrect because he has 135 seats and 130 children. He cannot take 9 adults because there are only 5 seats left.**
